

Executive for Inspection and Security

14 May 1948

Assistant Director for Operations

Termination of the Employment of

STAT

1. Reference memorandum of 26 March 1948 to Executive for Inspection and Security from Assistant Director for Operations, subject as above, improved staffing of the FBIE Teletype Section now makes possible release without serious curtailment of wire service operations.

STAT

2. It is emphasized, however, that is one of the most competent employees of the section, and that termination of his employment is not desired if there has been any favorable revision of his rating as a security risk.
